Software Engineer

Full-Stack Software Engineer with 4 years of experience building scalable, end-to-end applications for Fintech, AI SaaS, and Industrial clients. Collaborating with remote international teams, I have delivered over 25 live products. I excel at translating complex requirements into robust architectures, combining modern frontends (React/Next.js) with secure backends (Node.js, Java) from database to deployment.

WORK EXPERIENCE

VK Tech • Beijing, China • 03/2025 - Present Frontend Engineer

- **AI SaaS Product Suite:** Scaled 20+ AI tools to 150K+ users while maintaining 95+ SEO/Lighthouse scores using Next.js SSR.
- **Charge Hub:** Built a B2B EV charging platform featuring direct hardware control and a dynamic billing engine.
- **Fleet OS:** Shipped a multi-tenant platform for independent taxi fleets to manage company-leased cars and routing.
- **AIGC API:** Engineered a centralized backend service to handle and standardize all cross-product AI image/video requests.

Cooperative Bank of Oromia(DxValley) • Addis Ababa, Ethiopia • 09/2022 - Present Software Engineer

- **Michu Mizan (Fintech):** Led the frontend development for Ethiopia's first interest free financing platform, which has successfully disbursed over **60M+** in capital to more than **1,500** individuals.
- **Souqpass (Revenue-Based Financing):** Developed the platform for the first revenue based financing system in Ethiopia. This product has provided over **150M+** in funding to **3,000+** small businesses and is currently the primary financing tool for the country's farming sector.
- **DxValley Innovation Hub:** Designed and launched the central digital infrastructure for the Cooperative Bank of Oromia's Innovation Department, which serves as the main portal for nationwide hackathons, startup competitions, and digital training programs.

Keradion • Addis Ababa, Ethiopia • 01/2025 - 03/2025 Software Engineer

- **Omicron (Industrial E-commerce):** Developed the official landing and product showcase site for Ethiopia's exclusive Chint supplier using Next.js
- **Eyoha (Social Platform):** Built the responsive frontend for a community engagement platform, ensuring seamless mobile-first performance.
