SUMMARY

Frontend engineer with 4 years building production React, Next.js and TypeScript apps, doing full-stack work (Node.js, NestJS, PostgreSQL, CI/CD) for fintech and AI products when needed. Built 12 consumer AI SaaS tools (8 live, 200K+ monthly users) and a real-estate assistant on LLMs with a video avatar and AI phone calls. Delivered the frontends of three bank financing platforms (lead on one): US$6.4M+ financed for 10,000+ customers.

EXPERIENCE

Cooperative Bank of Oromia (DxValley) | Addis Ababa, Ethiopia | Full-time
Software Engineer → Senior Software Engineer (Payments Platform Innovation) | Sep 2022 – Present

- **Michu Mizan:** led the Next.js frontend of an Islamic finance platform; US$1.2M+ financed for 2,000+ customers.
- **Furtuu:** shipped the frontend of a farmer financing platform, with simple onboarding for farmers; US$4.3M+ financed for 5,000+ users.
- **Souqpass:** co-built the React frontend (two-engineer team) of a revenue-based financing platform with simple onboarding for small merchants; US$12M+ in transactions and US$920K+ in loans to 3,000+ businesses.
- **Zakat & Awqaf:** building the national platform's donor flows, admin console and CI/CD pipeline to Linux VMs.
- **HR platform (in progress):** review code for the team and set up its CI/CD and Kubernetes deployment, as one of a few seniors among ~60 engineers.

VK Tech | Remote (Beijing, China) | Contract, part-time
Frontend Engineer | Mar 2025 – Present

- **AI SaaS tools:** built 12 consumer AI tools in React, Next.js and TypeScript (8 live, 200K+ monthly users), led by geospy.net and geospy.tech (180K+): upload pipelines, generation queue UX and result galleries.
- **AIGC API:** built the shared generative AI service behind every tool, replacing per-product generation code.
- Owned Next.js server-side rendering (SSR/ISR), web performance and technical SEO for the newer tools.
- **Charge Hub:** built the EV-charging operator console: confirmation-gated, idempotent real-time commands.
- **Fleet OS:** built the multi-tenant frontend for taxi fleets: role-based dashboards for vehicles, drivers and routing.

Freelance and contract work | Remote and Addis Ababa | Part-time
Frontend Engineer | 2025

- **Revy AI (Upwork client):** AI real-estate assistant. Buyers chat with an AI agent with a HeyGen video avatar to search US property data; realtors get a CRM with leads, deals, AI phone calls (Vapi) and virtual staging. Built most of the web and Electron apps (Next.js 14, TypeScript, Vercel AI SDK, OpenAI, Supabase, Stripe).
- **Keradion (contract, Jan–Mar 2025):** Next.js company websites for Omicron, a Chint distributor, and Eyoha, a clinic.

PROJECTS

Qen | Open-source calendar library, author | 1.9K+ npm downloads a month | github.com/MuhidinM/qen

- Zero-dependency Gregorian, Ethiopian and Hijri calendar engine (@qen/core) with accessible React components.

SKILLS

- **Front-end:** TypeScript, JavaScript, HTML, CSS, React, Next.js (App Router, SSR/ISR), Tailwind CSS, shadcn/ui, Redux Toolkit, Zustand, TanStack Query, Electron, responsive design
- **AI integration:** LLM APIs (OpenAI, Google AI), multi-model apps, Vercel AI SDK, Mem0, HeyGen streaming avatars, Vapi voice agents, vision and image generation, async job queues, streaming UIs
- **Backend and data:** Node.js, NestJS, REST APIs, PostgreSQL, Supabase, Stripe
- **Quality and delivery:** Jest (unit testing), Playwright (end-to-end testing), Lighthouse and Core Web Vitals, accessibility, technical SEO, Docker, Kubernetes, GitHub Actions, CI/CD, Vercel, Sentry, Claude Code, Cursor

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science and Engineering | Adama Science and Technology University | 2022
